

Mille Lacs County Impervious Surface Worksheet

To be used for determining the impervious coverage in the Shoreland and Wild & Scenic River Districts. Parcels are allowed 25% coverage per State Rule.

Parcel Owner _____

Applicant _____

Parcel ID _____

Parcel Address _____

Step 1. Determine the parcel area. This can be accomplished using existing survey data, plat information, and/or direct measurements of known property. Discuss with staff if questions.

Total Surface Area of Parcel _____ **sq ft**

Step 2. Determine the total proposed impervious surface area on the parcel. Impervious surfaces includes all non-natural, non-vegetated surfaces including but not limited to, buildings, driveways and parking areas (paved or gravel), sidewalks, patios, decks, porches, and some landscaping.

Dwelling	_____	sq ft
Garage	_____	sq ft
Shed	_____	sq ft
Driveway	_____	sq ft
Sidewalk	_____	sq ft
Deck	_____	sq ft
Patio	_____	sq ft
Impervious Landscaping	_____	sq ft
Other	_____	sq ft
Other	_____	sq ft
Other	_____	sq ft

Total Impervious Surface _____ **sq ft**

Step 3. Determine the proposed percent of impervious surface coverage on the parcel

Percent Impervious = 100 x (Step 2 / Step 1)
 = 100 x (_____ / _____)

= _____ %

 (allowed 25%)
