## A. Needs Statement

### 1. Besides funding, what is the single biggest challenge you are facing in financial assistance services?

Transportation services for clients for all of their needs.

### 2. Besides funding, what is the single biggest challenge you are facing in employment services?

The current economy seems to be holding steady and Minnesota's unemployment rate was 3.4 percent in July on a seasonally adjusted basis while the labor force participation rate held steady at 70.0 percent (Department of Employment and Economic Development mn.gov). However, those who are not working in this economy truly are the "hardest to serve", which implies that the needs of some MFIP and DWP participants may be beyond the scope of services that are typically available through employment and training services alone, necessitating more intensive case management. Many of our public assistance recipients have spent years in poverty, where their immediate concerns are whether they can afford next month's rent or heating bill rather than finding work. When participants do find a job, it's often a low skilled, entry-level position, where longevity or retention isn't part of the long-term plan. Funding for training and education is critical. We have found that the likelihood of someone gaining sustainable employment, receiving a higher wage, and remaining self-sufficient longer was attributed to gaining skills through vocational or post-secondary training opportunities.

Serving the "hard to serve" requires increased staff time spent administering staff-assisted assessments, job search coaching, individualized plan development, and making referrals to community-based organizations for those needing additional resources to address challenges. Although caseload numbers may not increase per ES, the higher level of need for the participant being served requires more one-on-one time and participants who do go to work often hold shorter durations of employment, and experience a greater number of barriers.

Additionally, local medical professionals do not fully understand MFIP Employment and Training Services and how they can support and help enrolled participants to move forward in their self-sufficiency goals. Medical professionals will often provide medical opinion forms stating zero hours of participation is recommended and this is not necessarily in sync with the strengths-based, solution-focused approach MFIP

**C. Measures**

**Performance Measures**

1. Performance-based funding is determined by a service area's annualized Self-Support Index value. Review the information and report links in this section to see the effect of performance on funding and reporting, based on Statute 256J.626, subdivision 7.

Each year a bonus to a service area's Consolidated Fund allocation will be based on its performance on the Self-Support Index in the previous April to March year.

The **three-year Self-Support Index (S-SI)**: This measure starts with all adults receiving MFIP or DWP cash assistance in a quarter and tracks what percentage of them, three years later, are no longer receiving family cash assistance or are working an average of 30 hours a week if still receiving cash assistance. Those who left MFIP after reaching 60 counted months and those who left due to 100 percent sanction are only counted as a success if they worked an average of 30 hours per week in their last month of eligibility or if they began receiving Supplemental Security Income (SSI) after family cash assistance ended. To provide fair comparisons across service areas, DHS calculates a "Range of Expected Performance" for the S-SI that is based on local caseload characteristics and economic conditions. The service area's Self-Support Index value is whether the service area was above, within, or below its expected Range.

The S-SI and Range are annualized for the four quarters in the April through March year ending in the reporting year before the funding year. See the annualized report on the MFIP Reports page on the DHS website for 2019 <https://edocs.dhs.state.mn.us/lfsrver/Public/DHS-4651F-ENG>. A service area with an annualized S-SI "above" its customized Range of Expected Performance for 2019 will receive a 2.5 percent bonus added to its Consolidated Fund allocation for calendar year 2020.

[MFIP Annualized S-SI and WPR report \(PDF\)](#)

If your service area is receiving a bonus, congratulations! Please share a success strategy here:

9999 characters remaining

If your service area performed "above" or "within," you can go to item 2.

If your service area performed "below" for 2018 and performs "below" again for 2019, you then will have to **negotiate a multi-year improvement plan** with the commissioner. If no improvement is shown by the end of the multiyear plan, the next year's allocation must be decreased by 2.5 percent, to remain in effect until the service area performs within or above its Range of Expected Performance.

**C. Measures (continued)**

**Racial/Ethnic Disparities**

2. A **racial/ethnic disparity** for a service area is defined as a **one-year Self-Support Index** that is five or more percentage points lower for a non-white racial/ethnic group than for the white group of MFIP/DWP-eligible adults in that area. Access the report "Two-Year Performance Trends of Racial/Ethnic and Immigrant Group". This report lists (1) service areas that have any racial/ethnic disparities requiring action and (2) the table of differences for all service areas.

**If your service area is in the disparity list, please answer the following question:**

How many managers/supervisors have MAXIS access?

2. Describe the process your service area uses to identify and resolve discrepancies between MAXIS and WF1 data in areas such as Family Stabilization Services coding, employment/hours, sanction status, etc.

Employment and training provider staff, manager, or supervisor reviews a preliminary data report monthly, and has a conversation or email exchange with the Eligibility Supervisor or designated Eligibility Worker to share any concerns that arose during that review. The Eligibility Supervisor and Employment Services staff member discuss those concerns and determine whether a face to face discussion is needed or whether the issue is one that the Supervisor can address with worker(s) without further input by Employment Services staff.  
 Employment Specialist is available to Eligibility Workers as needed to go over all shared cases for accuracy.

### G. Other (continued)

#### Financial Hardship Request

FINANCIAL HARDSHIP - Exception to Choice of Employment Service Providers Requirement

MFIP provisions require counties to make a choice of at least two employment service providers available to participants unless a workforce center is being utilized (Minnesota Statutes, section 256J.50, subdivision 8). Counties may request an exception if meeting this requirement results in a financial hardship (Minnesota Statutes, section 256J.50, subdivision 9).

A financial hardship is defined as a county's inability to provide the minimum level of service for all programs if a disproportionate amount of the MFIP consolidated fund must be used to cover the costs of purchasing employment services from two providers or the cost of contracting with a workforce center.

To request approval of a financial hardship exception from the choice of provider requirement, please provide the following information.

1. If the county had a choice of providers in calendar year 2019, describe:
  - factors that have changed which indicate a financial hardship
  - why the hardship is expected to persist in the near future and
  - the magnitude of the hardship, which makes limiting delivery of employment services the best financial option for the county.

characters remaining

2. Summarize options explored by the county, including use of other partners in a workforce center or other community agencies, such as a Community Action Program or a technical college. The summary should also include:
  - major factors which prevent the county from utilizing these options and include a cost analysis of each option considered; and
  - the process used to determine the cost of other options (RFP or other county process).

characters remaining

3. If the county proposes to directly deliver MFIP employment services, provide a budget and staffing plan that clearly indicates consolidated funds will not be used to supplant county funds. The description should include information about what steps will be taken to ensure that county staff have the experience and skills to deliver employment services.

characters remaining

The Department of Human Services (DHS) and the Department of Employment and Economic (DEED) will also review the amount budgeted by the county for employment and training during calendar year 2019 and use this amount as a guide to determine whether the amount budgeted by the county for calendar year 2020 is reasonable.

If a financial hardship is approved, DHS and DEED will closely monitor county programs to ensure outcomes are achieved and services are being delivered consistent with state law.
